

These are the dogs that StreetLife has sterilised.... No 1300 to 1400.
We could not do this without our supporters. Working together, we can reduce the number of unwanted puppies and stray dogs in the East Algarve.

Be Wise.....

..... Sterilise

1300 - Cassy

This is Cassy who is 1.5 years old and is being looked after by Sandra in the São Bras area.

Last year Roseane, one of our StreetEyes, was approached by Sandra to see if StreetLife could help to sterilise a dog who was living in terrible conditions, with her four puppies.

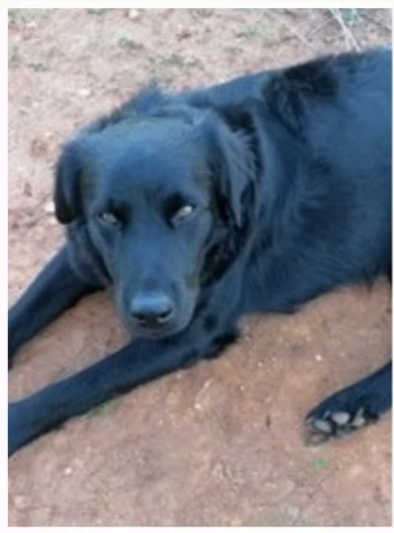

We agreed to sterilise the Mum, Carochina (No 1150)..... she was sterilised in July 2024.

Sandra took the four puppies to look after them and rehome them. Sadly, one died... but the other three are doing well.

Sandra asked if we would help to sterilise Cassy who is one of the puppies; now a little older. Naturally we agreed and she became our 1300th sterilisation.

Thank you Sandra and Roseane! Have a very happy life Cassy, what a beautiful doggie you are!

1301 - Jessi

Jessi is being cared for in the Olhão area after being found alongside the Moncarapacho/Estroi road. Fearing he would be run over, a kind lady took him home and kept him until APAR could home him.

An active search was carried out to find his family, but as he did not have a microchip and no one claimed him, APAR-Associação para protecção dos animais de rua- Moncarapacho/ Fuzeta will keep him and hopefully, find him a home.

Thank you to the lovely lady that rescued him from a risky situation and thank you to APAR!

1302 - Miley

Miley (2.5 yrs) lives with her owner Mauro in the Almancil area in a home with a small, enclosed yard. She also has access to the house but as the family includes a male dog, they were finding it a problem to manage the situation when she's on heat. So far, they've been lucky.

Mauro wanted to sterilise Miley, but he couldn't do it alone, so when he saw the StreetLife campaign he immediately got in touch with us!

Carlo, one of our StreetEyes, went to visit and met Miley! She was very scared and didn't want to be in the photo!

The application was approved and Miley is now safe from her male companion

1303 - Missy

Missy lives with Isabelle in the Querenca/Loulé area and for some reason, didn't get her story posted when she was sterilised in August 24. We found her details when doing a "tidy-up" and as each and every dog is important to us, we want to tell you about Missy!

Missy and her two puppies, Babu & Gordon, came to stay with Isabelle when their original owner went into hospital into intensive care.

We snipped the two puppies (No 1164 & No 1165), and we then sterilised Missy once the puppies had been weaned.

This was a sad situation and StreetLife was only too pleased to help.

Sorry Missy for not posting you last year!

1304 - NoName

Unfortunately, we cannot provide details of this sterilisation because this little girl who's still quite young needs our protection. She appeared at the house of an "animal lover" who already had a few dogs..... she appeared disoriented and in search of food!

An association checked her for a chip.... none found! She's living with a foster family now and is well taken care of. In the meantime, the shelter has asked us to help with her sterilisation. Of course we said yes!

Thank you to the "animal lover" and the association for coming to this little doggy's rescue. They're keen to find her a home, but she's safe, which is the main thing.

1305 - Roxy

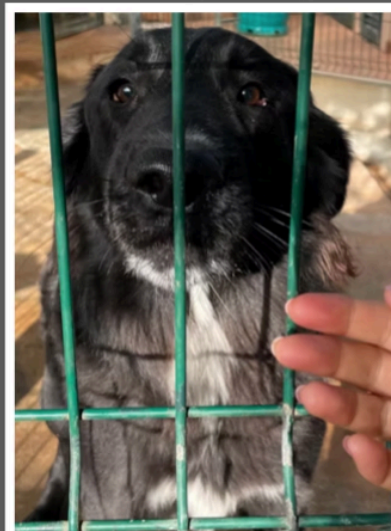

Roxy is around one year old and lives with her owner, Cidalia and her sister Becas (No 1306) in the Loulé area.

Cidalia rescued three puppies from the street and managed to sterilise one of them but asked for help with Roxy and Becas.... thanks to our November "Be Wise, Sterilise" campaign.

Roseane, one of our StreetEyes, went to visit and approved the sterilisation.

Thank you Cidalia for rescuing these puppies!

1306 - Becas

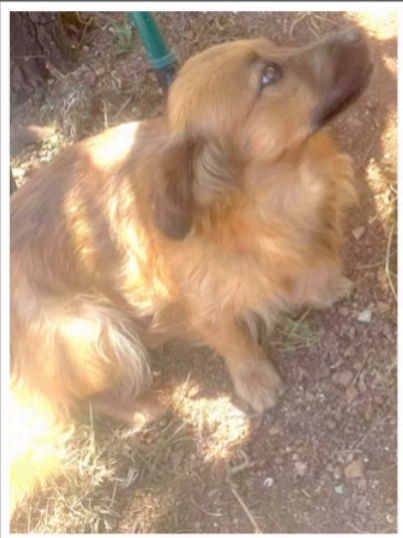

Becas lives with her owner, Cidalia and her sister Roxy (No 1305) in the Loulé area.

Cidalia rescued three puppies from the street and managed to sterilise one of them but asked for help with Roxy and Becas.... thanks to our November "Be Wise, Sterilise" campaign.

Roseane, one of our StreetEyes, went to visit and approved the sterilisation.

Thank you Cidalia for rescuing these puppies!

1307 - Vivi

This is Vivi who is about 6 years old and lives with her owner Mihaly, in the Loulé area.

Roseane, one of our StreetEyes, went to visit. Vivi had already had puppies and the owner had found homes for them all but kept a male... so, it seemed a good idea to get Vivi sterilised.

All sorted - no more puppies for Vivi.

1308 - Sofia

This is Sofia who is about 8 months old and lives with her owner Leila, in Estoi.

Leila was worried that when Sofia came on heat the male dogs would be able to jump over her fence and get to Sofia.

She saw our November Campaign and asked for help.

Roseane, one of our StreetEyes, went to visit and approved the application.

Sofia is now safe from the boys!

1309 - Cristas

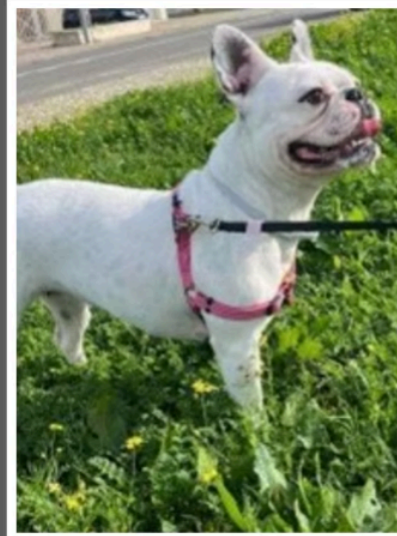

Cristas (6 yrs) lives with Francisco and his friendly neighbour in the Moncarapacho area.

Three dogs just appeared on Francisco's unfenced land.... Panufa (No 1202), Mancha (No 1203) and Cristas. The neighbour helped with feeding but of course, a litter appeared soon after. We were not able to catch Cristas when the first two were sterilised!

Concerned with their safety, APAR got involved and helped with the puppies. It was obvious the adult females needed to be sterilised and StreetEye Carla, treated the dogs and approved the applications for sterilisation!

Francisco was so grateful as he does not have much money but wanted to help the dogs!

1310 - Betty Boop

Betty Boop (3 yrs) who lives with Sónia and family in the Olhão area, was adopted by them as the last of a litter.

Sónia is careful with Betty Boop and wanted to have her sterilised but it was not affordable. A friend told her about our November Campaign so she immediately got in touch with StreetLife.

Carla, one of our StreetEyes, went to meet the lovely Betty Boop, who'd been on heat a few times and had also developed fake pregnancies which could have resulted in more problems in the future.

Carla approved the application and now Betty Boop will not have any unwanted puppies!

1311 - Sitxa

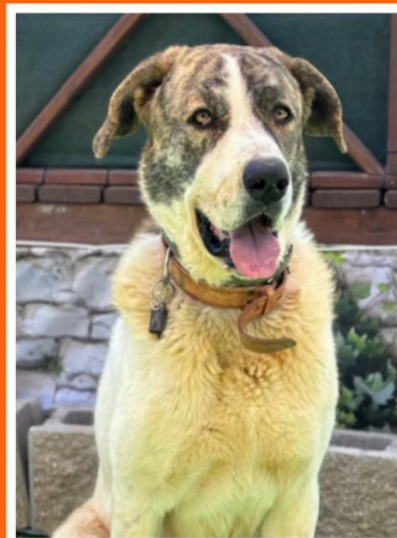

This is Satxi who is just over one year old and lives with her owner Roberta, in the Olhão area.

Roberta wanted to get Satxi sterilised; but as the cost was too high for her, she contacted StreetLife and asked if we could help.

One of our StreetEyes, Carla, made a home visit and also discovered that Satxi was pregnant. Everything was approved and Satxi was booked in with one of our Partner Vets.

1312 - Gabriel

This is Gabriel who is about 2 years old and lives with his owner Llidio, in the Quarteira area.

Gabriel is a big doggie and certainly a really handsome boy.

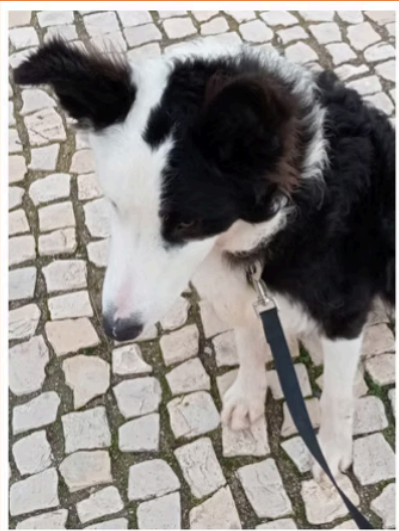

His owner saw details about our November campaign and sent StreetLife an email asking for our help.

Sonia, one of our StreetEyes, went to visit and approved the application.

The cost of a sterilisation for a large dog is quite expensive and StreetLife was only too happy to help!

1313 - Malhadinha

This is Malhadinho who is about 1 year old and lives with his owner Helio, in the Olhão area.

Helio contacted StreetLife asking for help as he thought it was important to sterilise his dog but the full cost was too much for him to cover.

StreetLife approved the application.

1314 - Nina

This is Nina who is 2 years old and lives with her owner João, in the Olhão area.

João saw our November Campaign and asked if we could help sterilise Nina.

The application was approved... no unwanted puppies for Nina!

1315 - Rambo

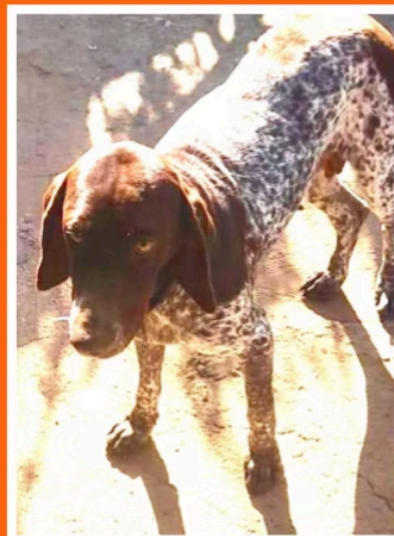

Rambo (6 mths) was fostered by StreetEye Dineke, in the Loulé area. He arrived in the garden of Dineke's friend and although they checked for a chip and posted media about Rambo, nobody contacted Dineke so she took him "under her wing". He was unruly and It was hard to even pick him up. Although he is small, Dineke felt he was feisty enough to mix with her other dogs. Socialising him, one-by-one, he was soon comfortable.

Naturally StreetLife was happy to do his sterilisation... and the good news is that he's been adopted!

We do love happy endings ... thank you Dineke for helping this little chappie!

1316 - Flecha

This is Flecha who is 3 years old and lives with her owner Sidonio, in the Sta Barbara area.

Roseane, one of our StreetEyes, went to visit and approved the application immediately.

No unwanted puppies for Flecha!

1317 - Xico

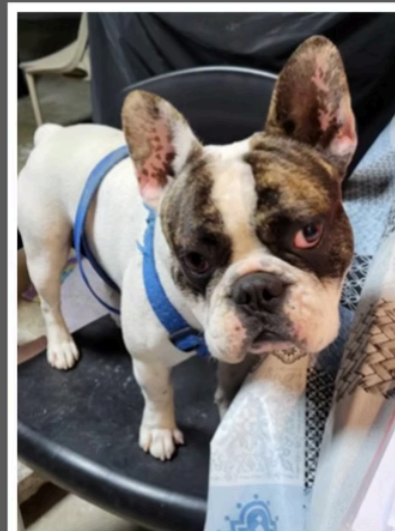

This is Xico who is about 2 years old and lives with his owner Sharon, in the Loulé area.

What a little cutie Xico is

1318 - Nuggets

Nuggets (2 yrs) lives with his owner Angela, in the Luz de Tavira area; he didn't have a good start, spending the first months alone, in a backyard. He had food, but was all alone.

Angela took him in, but Nuggets became a bit aggressive with her other dog and cat. Angela considered rehoming Nuggets but decided to give him another chance when her neighbour told her about our November Campaign. She made contact and StreetEye Carla visited and approved the application; also suggesting some doggy training for Nuggets.

Let's hope that Nuggets overcomes his problems... thank you Angela for giving this little boy a chance!

1319 - Andorinha

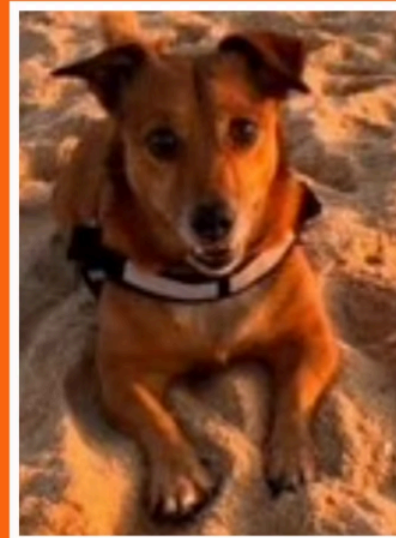

Andorinha (1.5 yrs) lives with her owner Euleuterio in a mobile home, in the Faro area. He has a few dogs and a female who had puppies.... now, they all live there. Euleuterio can hardly afford food so sterilisation was not feasible. StreetEyes Roseane and Carla take food once a week and it was agreed that all three dogs need to be sterilised.... starting with the females!

Andorinha was the first dog they could catch and she was pregnant, so it's sorted now... no more unwanted puppies!

Roseane and Carla are on a mission to get them all sterilised. We will update you as they are caught and snipped!

1320 - Lile

Lile (8 mths) lives with her owner Dalia, in the Olhão area.

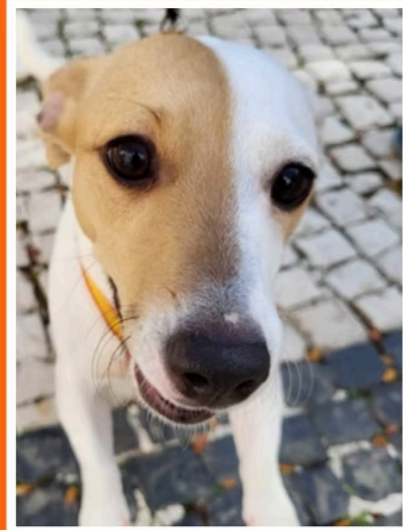

Dalia found out about StreetLife from her daughter-in-law who we helped a while ago with the sterilisation of her female dog.

She asked if we could help Dalia sterilise Lile; they had wanted to do this but things were hard, living in a house with 6 adults, one baby and two dogs. The cost of a sterilisation was impossible!

StreetEye Carla assessed the situation and approved the application under our November Campaign.

Everything is now sorted!

1321 - Vanille

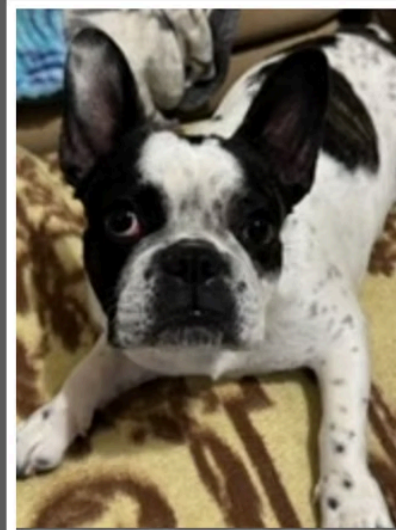

This is Vanille who is 9 months old and lives with her owner Christina, in the Fuseta area.

Vanille was adopted when she was a puppy.

Cristina wanted to sterilise her, but her husband lost his job and they had to postpone Vanille's sterilisation because of the cost.

When they found about StreetLife, they immediately made contact and one of our StreetEyes, Carla, went to visit and approved the application under our November Campaign.

1322 - Maria

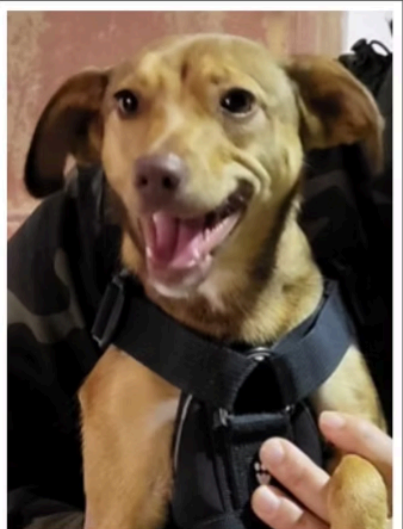

Maria, a French Bulldog (8 mths) lives with Valéria in the Loulé area; she rescues, cares for, treats and sterilises many animals and pays! Valéria heard about the SL November Campaign and asked for help.

StreetEye Carla visited... it is such a sad story - Maria was abused and starving, living in a box, just waiting to breed. Although it was costly, Valéria rescued her... then took care of Vet checks and nutrition.

We got Maria to a Partner Vet quickly; we suspected that she was pregnant and she was! Thanks so much to Valéria for rescuing Maria.

1323 - Sol

Sol (7/8 mths) old lives with her owner Nilsa, in the Moncarapacho area and was adopted as a puppy. A happy girl with freedom to roam.... this poses a problem for when she's on heat!

She's still young, so immediate sterilisation was important to avoid problems with the males in the area.

Nilsa contacted StreetLife when she saw our November Campaign.

StreetEye Carla went to visit and approved the application so Sol is safe now, from unwanted puppies.

1324 - Snoopy

Snoopy (2 yrs) was adopted as a puppy from APAR, but his family recently had serious problems, causing suffering for their dogs. APAR rescued a terrified, skinny boy but vowed to find him a home where he will not be ill-treated again. StreetEye Carla submitted the application for APAR... of course we agreed.

Good news!! A much improved Snoopy is now fostered... a bridge to his new home.

Eve, independent dog lover, found homes for the other dogs! Sterilisations couldn't be organised before relocation but the new owners assured Eve that they'd be snipped.... thank you Eve for being there for these dogs! Thanks to everyone involved with this sad situation; we're so thankful for a happy ending!

1325 - Luna

Luna is a year old and lives with her mother, Eli (No 1326) and their owner Pedro, in the Tavira area.

Hannah (6 mths) and her brother Unai (No 1328) were rescued by Partner Shelter, Benafim Dogs Rescue. Part of a group of dogs abandoned with 5 others in a courtyard... Benafim volunteers were climbing walls daily to feed/socialise the dogs. The pups were sent to another "puppy specialist" association.

All the other dogs rescued have been neutered and are at the Benafim shelter. These two adorable puppies have reached the right age, so they have now been sterilised too!

They are still available for rehoming so if anyone is interested, please contact Benafim directly or send us a message and we will pass it on to them.

1328 - Unai

StreetLife approved the application.

1339 - Sissi

This is Sissi who is 5/6 months old and lives with her owner Rogeiro in the Moncarapacho area.

1344 - Fudge

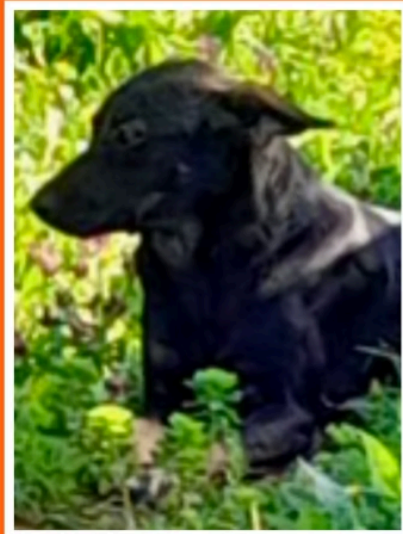

This is Fudge who is about 1 year old and is under the care of Benafim Dogs Rescue, one of our Partner Shelters.

Fudge was found on the 13th February having been attacked by other dogs just outside of Benafim.

The lady who found him contacted Benafim Dogs Rescue and despite them trying to locate an owner, no one came forward. After a few days of Fudge being at the Vets, a space became available at the shelter.... and now he is being taken care of and his tail is wagging .

What a beautiful boy he is!

1345 - Patroa

Patroa (2 yrs) lives with Fernanda in São Bras. StreetEye Marie (from Partner Shelter 2ndhand4footers) visited Fernanda who'd applied under our November campaign and who needed help due to a medical condition.

Patroa was a puppy from Fernanda's other female dog. Thankfully that "mum" dog was sterilised by the camara.

1346 - Pipoca

This is Pipoca who lives with his owner Ana, in the Fuseta area and Kaya Maria (No 1347).

1347 - Kaya Maria

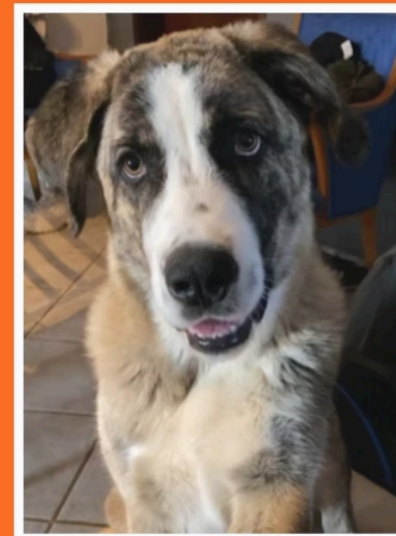

This is Kaya Maria who lives with her owner Ana in the Fuseta area and Pipoca (No 1346).

Ana made contact via the Junta's office in Moncarapacho. StreetLife went to visit and approved both sterilisations... a male and a female dog living in the same house is not always a good idea unless sterilised.

1348 - Amora

Amora (5 yrs) lives with Ludmila and family in the Moncarapacho area. They lived in a house with a garden previously, but had to move to an apartment with their parents. This resulted in two large Rafeiro Alentejanos, a male and a female, living in the same home. Of course, Amora became pregnant.

Ludmila managed to rehome all of the puppies but was fearful of another pregnancy. Through APAR, a Partner Shelter, they contacted StreetLife and after a visit from StreetEye Carla, the application was approved. No more puppies for Amora!

1349 - Pepe

This is Pepe who is believed to be around 6 years old and lives with his owner Pippa in the Loulé area.

Pepe was rescued from the streets by Pippa... he has serious mange and other skin issues and she spent a great deal with the vets on treatment.

What a lucky boy you are Pepe to find a loving home ... and thank you to Pippa for coming to his rescue.

1350 - Bo

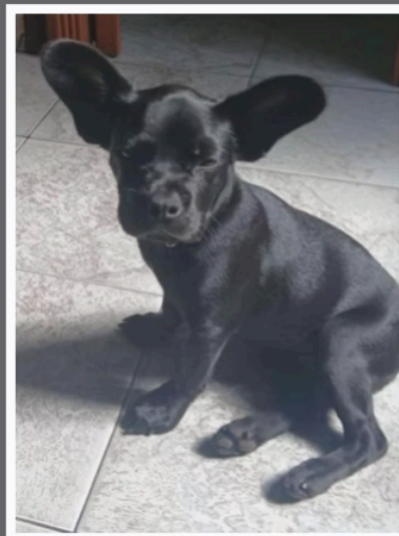

Bo (9 yrs) is under the care of Benafim Dogs Rescue, a Partner Shelter.... they were alerted to Bo who was abandoned and so thin he could hardly stand. His skin was in a dreadful state and he was covered in ticks and fleas.... this poor boy was at death's door.

Benafim immediately took him to the Vet for a check and then to their shelter. Slowly, his strength was built up and now he plays with the other dogs.... tail wagging and coat shining.

Finally, this adorable chap was strong enough for sterilisation. Well done Benafim!

Bo is still looking for his "forever" home... please contact Benafim or send us a message and we'll pass it on.

1351 - Nikita

This is Nikita who is 7 months old and lives with her owner Aurelia, in the Alte area.

Benafim Dogs Rescue helped with the completion of this application. They went to visit Aurelia, who had recently adopted Nikita from a local lady whose 14 year old female had given birth to puppies.

StreetLife approved the application.

1352 - Nina

This is Nina who is about 3 years old and lives with her owner Jorge and his wife in the Loulé area. Nina has had several litters of puppies and was pregnant again.

A friend of one of our StreetEyes, Valeria, convinced Jorge and his wife that sterilising Nina was a good thing to do.

Fortunately, they listened to her and StreetLife got Nina in as soon as possible to be sterilised... and in fact Valeria took the dog herself and collected her from the Vet to make sure it happened!!

Well done Valeria for sorting this out !

1353 - Deysi

This is Deysi who lives with her owner Idalina in the Laranjeiro area in Moncarapacho.

We were contacted by one of our StreetBuddies, Natalie, to see if we could help sterilise Idalina.

1354 - Ritinha

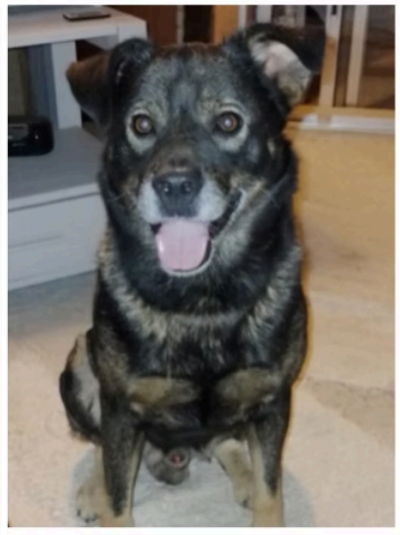

This is Ritinha who is 6 months old and lives with her owner Cesario in the Tor (Loulé) area.

1355 - Paco

This is Paco who is about 5 years old and lives with his owner Daniela, in the Castro Marim area.

Paco can be a bit naughty; as soon as he gets the scent of a female dog on heat he's off and sometimes can be gone for days. Daniela is at her wits end with worry.

She doesn't want to tie him up or lock him anywhere ... Paco is from a shelter and Daniela desperately wants to do what's best for him, but she is on a limited income.

Daniela contacted StreetLife and we naturally said we could help.

1356 - Kika

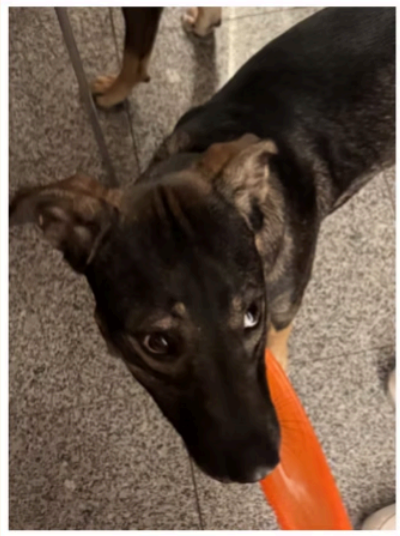

Kika (3 yrs) is fostered by Eve in the Moncarapacho area. She was rescued by Eve from appalling conditions... terribly underweight and poorly. Since then, Kika has received lots of love and food and she's been socialised with many other dogs.

She now has a wagging tail and is clearly so much happier.... she's well, healthy and happy!

Thank you Eve for not turning a blind eye... thank you for caring!

Eve is an independent rescuer who, without a doubt, has the magic touch with dogs

1357 - Pluto

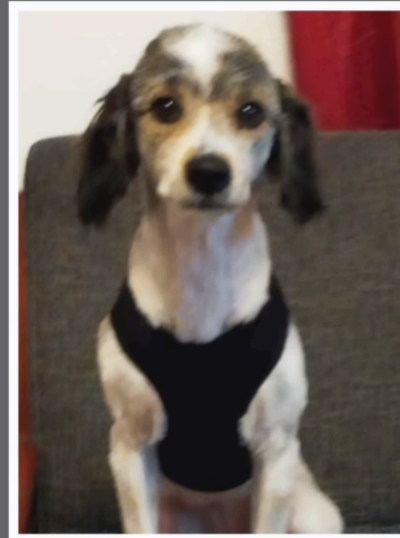

This is Pluto who is about one year old and lives with his owner Rita in the Faro area.

Rita asked for help because she knew the importance of sterilisation but the cost was a little bit too high for her as she was the only one earning in her family.

We agreed the application.

1358 - Vicky

This is Vicky who is about 6 years old and lives with Diana and her family in the Quarteira area.

Diana lives with her two small children and urgently wanted Vicky sterilised but as a single parent, the cost was too high for her.

StreetLife approved the application.

1359 - Tilly

This is Tilly who is about one year old and is cared for by Adrian & Marie at 2ndhand4footers one of our Partner Shelters.

StreetLife was happy to approve the application. Well done Carla!

What a cutie Zoe is!

1361 - Maggy

Maggy (8 yrs) is pregnant, Zoey (No 1362) is also pregnant and Bebe (No 1363) is soon to go on heat... all part of a 14-dog pack (5 females & 9 males) and all live with Nuno in Estoi. APAR submitted a request for help and StreetEye Carla visited. With 4 males fighting over the 3 girls and 5 puppies plus other male dogs visiting, there's the potential for more puppies. As animal lovers, people leave pups on their doorstep too.

It's not possible to sterilise 14 dogs so we agreed to do the 5 females (Flow & Zira - later). This request costs around €1000 (incl chips) so we couldn't snip the males... it's just not financially feasible; we try to do the best we can!

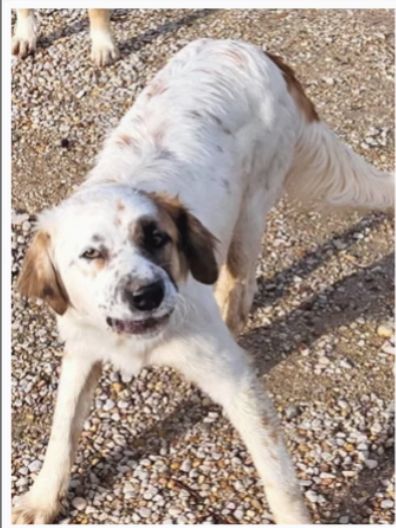

1362 - Zoey

Zoey is pregnant and so is Maggy (No 1361). Bebe (No 1363) is soon to go on heat. They are part of a 14-dog pack (5 females and 9 males) and all live with Nuno in Estoi. APAR submitted a request for help and StreetEye Carla visited. There are 4 males constantly fighting over these 3 girls... 5 puppies plus other male dogs visiting so there's the potential for many puppies and as animal lovers, people leave puppies on their doorstep.

It's not possible to sterilise 14 dogs so we agreed to sterilise the 5 females with Flow & Zira to be sterilised later. This request will cost €1000 (incl chips) so we can't snip the 9 males but we always do the best we can!

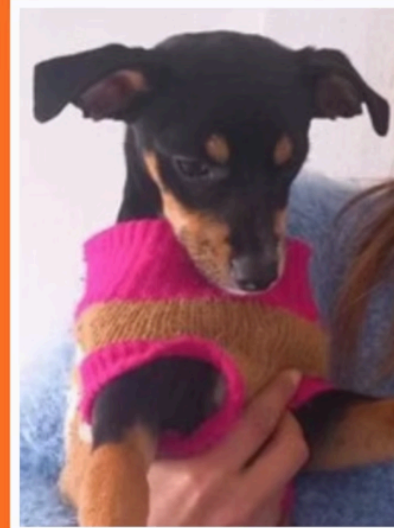

1363 - Bebe

Bebe is soon to go on heat and Zoey (No 1362) and Maggy (No 1361) are both pregnant... all part of a 14-dog pack (5 females & 9 males) and all live with Nuno in Estoi. APAR submitted a request for help and StreetEye Carla visited. With 4 males fighting over the 3 girls and 5 puppies plus other male dogs visiting, there's the potential for more puppies. As animal lovers, people leave pups on their doorstep too.

It's not possible to sterilise 14 dogs so we agreed to do the 5 females (Flow & Zira - later). This request costs around €1000 (incl chips) so we couldn't snip the males... it's just not financially feasible; we try to do the best we can!

1364 - Kamba

Kamba (7 mths) lives with Maria in Salir now. Sadly, her owner was found dead at home... Maria was his neighbour and reported him missing. Kamba was found in the home by the GNR. Maria was the only one who could get close to Kamba and decided to keep her.

Because Maria has other animals, she contacted StreetLife for help and StreetEye Carla visited and approved the application.

Thank you Maria, for rescuing Kamba in such a sad situation!

It couldn't take place immediately because Foxy had an ear infection then went on heat... but finally we got it all sorted and Foxy is safe now from unwanted pregnancies and puppies!

A very scared puppy showed up, probably having run away from hunters! This is QueenB (9 mths); she now lives in Olhão, with Vera who her in after trying to find out if anyone was looking for her.... no microchip, of course!

Although Vera already has a few animals, she decided to keep her but where they live is not fenced and when she goes on heat, we know what will happen! Vera spoke to a friend and then contacted StreetEye Carla who visited. As part StreetLife's "Spay Day Campaign" in February, we approved the application.

Thank you Vera for rescuing QueenB, a very sweet Podengo girl!

StreetEye Roseane who was there to help with a sterilisation application for Veneza, rescued all the puppies and took many of them directly to the Vet and eventually, she found homes for them all. It took Roseane several days to catch Veneza and with the task of getting her to the Vet, there was no opportunity for a photo session.

Well done Roseane... this shows you how one StreetLife visit can turn into an "adventure"!

1375 - Martina

This is Martina who is 3 years old and has been rehomed, was under the care of APAR, one of our Partner Shelters.

Vânia adopted Lassie and only asked for help when the time came for sterilisation, as she already had a male dog.

Carla, one of our StreetEyes, went to visit and approved the application.

1381 - Nala

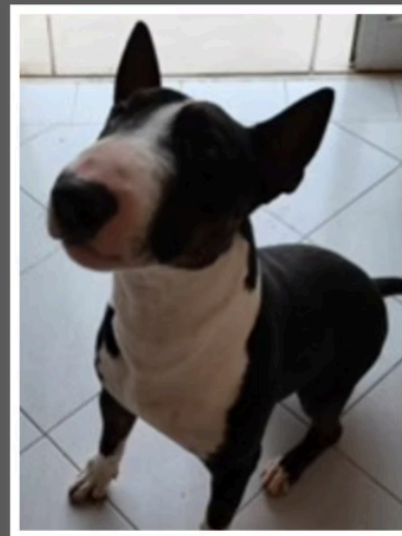

This is Nala who is 3 years old and lives with her owner Roberta, in the Olhão area.

1382 - Ukush

This is Ukush (2.5 yrs) who lives with Chucky (No 1269) and owner Teresa, in the Quarteira area. Teresa recently had a change in circumstances but her two dogs are still her top priority. She was keen to have these boys sterilised because both wanting to be "top dog" was causing problems.

She saw posters about StreetLife's November campaign and asked for help as she knew she would not have the money to pay herself.

StreetEye Carla did the assessment and approved both. Ukush gave StreetLife some trouble because he's aggressive when scared... even sedation wasn't possible. Finally, with expert help, we got him sterilised!

1383 - Daisy

Daisy (6 yrs) lives with Claudio who is also the owner of a female dog, in the Loulé area.... he contacted us for help.

They did not have a spare kennel so Yvonne took her in to foster. Betty is friendly.... and smiley and gets on with Yvonne's other dogs.

He had to be rescued by the local Canil the last time he escaped.... Ana was obviously concerned so because we had helped her before, she contacted us.

1387 - Evita

Evita (6 yrs) lives with her owner Sandra, who recently adopted her, in the Quarteira area. The treatment was expensive so Sandra contacted StreetLife for help with the sterilisation.

Our StreetEye visited and approved the applications but then it all became a bit "messy" ... StreetLife went through with the sterilisations for the sake of the dogs but we will not be helping these people again!

Our unofficial StreetEye, Eve, contacted Benafim and they came to the rescue. They made space for the happy Dino whose tail just keeps wagging; we supported his sterilisation. 1398 - Julinha

This is Julinha who is 6 months old and lives with her owner Madalena, in the Boliqueime area.

Madalena already has 10 rescued dogs; then one day this little doggie Julinha appeared in front of where Madalena works. She could not leave her on her own, so took her home.

StreetLife was contacted to see if we would help with her sterilisation.... of course we said yes!

1399 - Popy

This is Popy who is 6 months old and lives with her owner Ines, in the Loulé area.

This is Nini who is 8 months old and lives with her owner Maria, in the Loulé area.

Maria contacted StreetLife and one of our StreetEyes, Dineke, went to visit in April. Then Nini went on heat and every male dog in the area took an "interest".
