For now, nothing has happened because Snoopy is young, but his hormones will soon be kicking in and the fights may begin with lots of dogs jumping the fence, looking for female companions. So, Monica consciously decided to sterilise Snoopy but could not do this on her own. In her search for help, a friend mentioned our StreetLife October/November Campaign.

StreetEyes Carla, visited Snoopy and his male dog friend (Max). The application was approved and Snoopy can now have fun without causing the girls any problems.... and Max will also get the snip soon!

It's only due to the kindness of friends and supporters that StreetLife is able to continue to alleviate the suffering associated with unwanted litters of puppies. Thank you all!!!
